GP Net Earnings

In the UK, GPs are contractually obliged to publish earnings annually.

Here is a list of the earnings in the local NHS economy:

£280 this is the average amount the Hospital Charges the NHS for a First Outpatient Appointment.
(Note there is no guarantee of seeing a Consultant)

£200 average amount the hospital Charges for a Follow Up Appointment.

£163 average amount the NHS is charged every time a patient visits A&E

£35 is the average price Urgent Care Centres are paid every time a patient visits

£23 is the average cost of the local GP Access "Hub" appointments in Brent

£5 this is the average amount your GP practice is paid per month, per patient. This is a one-off amount. There is no increase funding for any type of patient.

From the monthly £5 your GP surgery receives, the expenses include:

- All Staff costs including tax, pensions and national insurance
- All utility bills, including: gas, electricity, telephones, insurance
- All clinical staff costs including GPs, nurses, pharmacists, physician associates
- All NHS correspondence including referrals and Hospital Discharge Summaries
- All prescriptions including new and repeat medications
- Nursing services including NHS vaccinations, cervical smears

£40,495.88 is the average net earning of for our GP workforce (37.5 weekly hours) in 2017/18 at Hazeldene Medical Centre.
